

REMARKS

As the Examiner should be aware, this application is part of the Motorola "bulk filing" applications. Special procedures have been approved for these cases with regard to IDSs, etc. Examiner Baumeister and SPE Chaudry are well aware of this program should the Examiner have any questions. Of course, he may also call the undersigned.

The present claims are not unpatentable over the cited art. This application claims priority to an earlier case, and is entitled to such priority. Moreover, the references are not combinable as presented, as, e.g., Kaushik does not relate to a semiconductor device or structure, and in no way enables the manufacture of same. For these reasons applicants respectfully request the withdrawal of the outstanding prior art rejection. As the double patenting rejection will kindly be held in abeyance, applicant will await the indication of allowable subject matter. In addition, it is to be noted that several of the "Bulk filing" cases have been abandoned.

Finally, attached hereto is a proposed drawing change for the Examiner's review.

Respectfully submitted,

OBLON, SPIVAK, MCLELLAND,
MAIER & NEUSTADT, P.C.
